Kinetiko Energy Ltd (ACN 141 647 529) (ASX: KKO) ("**KKO**" or the "**Company**") is pleased to announce a renounceable, pro-rata entitlement offer of up to 84,266,771 fully paid ordinary shares ("**New Shares**") on the basis of one (1) New Share for every sixteen (16) Shares held at 5:00pm (AEST) on Monday, 20 May 2024 ("**Record Date**"), at an issue price of \$0.06 per New Share to raise up to approximately \$5,056,006 (before costs) ("**Entitlement Offer**"). Persons who are registered as a holder of Company shares as at the Record Date and have a registered address in Australia or New Zealand (and certain other shareholders (including, but not limited to, certain shareholders with registered addresses in South Africa) as identified in the Offer Document) ("**Eligible Shareholders**") may also apply for additional New Shares which comprise the New Shares not validly applied for by Eligible Shareholders pursuant to their entitlement under the Entitlement Offer ("**Shortfall**"), at an issue price of \$0.06 per New Share ("**Shortfall Offer**").

Together, the Entitlement Offer and Shortfall Offer are referred to as the "**Offers**" and they will be made under an offer document pursuant to the *Corporations Act 2001* (Cth) ("**Corporations Act**"), which for the avoidance of doubt, is not a prospectus pursuant to section 708AA of the Corporations Act ("**Offer Document**") which will be lodged with the ASX forthwith. The Offers are not underwritten or lead managed. The Company has nominated Euroz Hartleys Limited (ACN 104 195 057) (AFSL 230052) ("**Nominee**") to act as nominee to arrange for the sale of the Entitlements that would have been given to Ineligible Shareholders.

The New Shares are attractively priced at \$0.06 per New Share based on providing a suitable discount to the illiquid and volatile average price of the shares trading on the ASX and to reward long term shareholders for their support. All New Shares will rank equally with existing shares on issue and the Company will apply for quotation of the New Shares.

The funds raised from the Offers will enable the Company to, amongst other things, aggressively advance the Company's gas exploration activities that are underway and highlighted by the five (5) appraisal production wells to be drilled this year and planned to achieve the highest flow rates and technical outcomes, and for general working capital. Further details in this regard are set out in Section 3.1 of the Offer Document.

2. These dates are indicative only and are subject to change.

For the purposes of Listing Rule 7.7.1(c), the Company has appointed Euroz Hartleys Limited (ACN 104 195 057) (AFSL 230052) ("**Nominee**") as nominee for the purposes of section 615 of the Corporations Act to arrange for the sale of the rights to subscribe for New Shares pursuant to the Offer Document ("**Entitlements**") to which Ineligible Shareholders are entitled. The Nominee will have the absolute and sole discretion to determine the timing and price at which the Entitlements may be sold and the manner of any such sale. Any interest earned on the proceeds of the sale of these Entitlements will firstly be applied against expenses of such sale, including brokerage, and any balance will accrue to Ineligible Shareholders.

The net proceeds of the sale of these Entitlements will then be forwarded by the Company as soon as practicable to the Ineligible Shareholders, in proportion to their share of such Entitlements (after deducting brokerage commission and expenses). If any such net proceeds of sale are less than the reasonable costs that would be incurred by the Company for distributing those proceeds, such proceeds may be retained by the

Company. Notwithstanding that the Nominee may sell Entitlements, Ineligible Shareholders may nevertheless receive no net proceeds if the costs of the sale are greater than the sale proceeds.

There is no guarantee that the Nominee will be able to sell Entitlements of Ineligible Shareholders on ASX or that there will be a liquid market in traded Entitlements. Both the Company and the Nominee take no responsibility for the outcome of the sale of such Entitlements or the failure to sell such Entitlements or if you trade your Entitlements before they are allotted (whether on the basis of confirmation of the allocation provided by the Company or otherwise).

Copies of the Offer Document will be mailed to Eligible Shareholders in accordance with the timetable set out above. Copies will also be made available on the ASX website (ASX: KKO) and the Company website (www.kinetikoenergy.com.au). The Company confirms that the Offer Document will be sent to Eligible Shareholders and a letter in accordance with Listing Rule 7.7.1 will be sent to ineligible shareholders and Company option holders. Eligible Shareholders should consider the Offer Document in deciding whether to acquire New Shares under the Offers and will need to follow the instructions on the entitlement form that accompanies the Offer Document.

LETTER FROM THE EXECUTIVE CHAIRMAN

Dear Shareholder,

On behalf of Kinetiko Energy Ltd (ACN 141 647 529) (“**Company**”), I am pleased to invite you to participate in a renounceable, pro-rata entitlement offer available to Eligible Shareholders of up to eighty four million, two hundred and sixty six thousand, seven hundred and seventy one (84,266,771) New Shares on the basis of one (1) New Share for every sixteen (16) Shares held on the Record Date, at an issue price of \$0.06 per New Share to raise up to approximately five million and fifty six thousand and six dollars (\$5,056,006) (before costs) (“**Entitlement Offer**”) and add to your existing investment in the Company. Eligible Shareholders may also apply for additional New Shares which comprise the Shortfall to the Entitlement Offer, at the same issue price of \$0.06 per New Share (“**Shortfall Offer**”).

As a result of strong indications of support by many of the Company’s Shareholders the Board holds expectations for greater Shareholder rights participation. The Company has nominated Euroz Hartleys Limited (ACN 104 195 057) (AFSL 230052) (“**Nominee**”) to act as nominee to arrange for the sale of the Entitlements that would have been given to Ineligible Shareholders.

Funds raised under the Offers will be used to aggressively advance the Company’s gas exploration activities that are underway and highlighted by the five (5) appraisal production wells to be drilled this year and planned to achieve the highest flow rates and technical outcomes, and for general working capital. Further details in this regard are set out in Section 3.1.

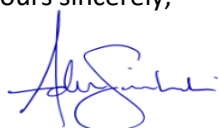

The Offers are open to all Eligible Shareholders, being Shareholders of the Company on the Record Date who have a registered address in Australia, New Zealand or South Africa (who are not U.S Persons). Notwithstanding the above, the Company may (in its absolute discretion) extend the Entitlement to certain Shareholders who have registered addresses outside the eligible countries in accordance with applicable law. The Company is subject to a range of risks, both those relating to the success of its gas exploration operations in South Africa, as well as those which apply to the gas and energy sector, such as a loss of key personnel and commodity price fluctuations. These risks are discussed in more detail in Section 4.

Eligible Shareholders may apply for some, or all, of their Entitlement under the Entitlement Offer and may also apply for additional New Shares in excess of their Entitlement pursuant to the Shortfall Offer (for further details see Section 2). The Entitlement Offer is scheduled to close at 5:00pm (AEST) on Monday, 3 June 2024. As the Entitlement Offer is renounceable, your right to participate in the Entitlement Offer is transferable. You may trade your Entitlement on ASX or transfer it to another person. Further details of how this may be done are provided in Section 2.1. Your Entitlement may have value and it is important that you determine whether to take up, sell or do nothing with your Entitlement.

Details of how to participate in the Offers are provided on the Acceptance Form and to participate you will need to ensure that you have paid all Application Monies before the Closing Date.

The Directors are very appreciative of the long-term support and loyalty of the Company’s Shareholders and invite you to consider this opportunity to further support the Company’s immediate focus to deliver a series of appraisal production gas wells to accelerate towards its’ vision to become the largest on share gas producer in South Africa.

Yours sincerely,

Adam Sierakowski
Executive Chairman
Kinetiko Energy Ltd

1 DETAILS OF THE OFFER

1.1. ENTITLEMENT OFFER

The Company is making a renounceable pro-rata offer to Eligible Shareholders of up to eighty four million, two hundred and sixty six thousand, seven hundred and seventy one (84,266,771) New Shares on the basis of one (1) New Share for every sixteen (16) Shares held on the Record Date, at an issue price of \$0.06 per New Share to raise up to approximately five million and fifty six thousand and six dollars (\$5,056,006) (before costs) ("**Entitlement Offer**"). Any New Shares not taken up by Eligible Shareholders will form the Shortfall Shares.

Eligible Shareholders are being sent this Offer Document together with a personalised Acceptance Form and are invited to apply for New Shares. The number of New Shares to which you are entitled is shown on your personalised Acceptance Form ("**Entitlement**"). The Entitlement Offer opens at 9:00am (AEST) on Thursday, 23 May 2024 and closes at 5:00pm (AEST) on Monday, 3 June 2024.

Entitlements under the Entitlement Offer will be rounded down to the nearest whole number. Entitlements of Shareholders that round down to zero will not have any entitlement under the Entitlement Offer.

Based on the current capital structure of the Company as at the date of this Offer Document, a maximum of eighty four million, two hundred and sixty six thousand, seven hundred and seventy one (84,266,771) New Shares will be issued pursuant to this Entitlement Offer to raise up to five million and fifty six thousand and six dollars (\$5,056,006) (before costs).

1.2. SHORTFALL OFFER

Any Shares which are offered to Eligible Shareholders as part of their Entitlement but are not taken up will form the Shortfall Shares. The Directors reserve the right to issue any Shortfall Shares at their discretion within three (3) months after the Closing Date and the Shortfall Shares will be issued at the same price as the New Shares under the Entitlement Offer ("**Shortfall Offer**").

Eligible Shareholders who have subscribed for their Entitlements in full may apply for Shortfall Shares by completing the relevant section of their Acceptance Form and returning it to the Company together with the relevant Application Monies.

Shortfall Shares will be allocated to Eligible Shareholders who apply for Shortfall Shares in accordance with the following policy (subject to availability):

- the additional Entitlements will only be issued to the extent that the issue of Shortfall Shares to that Eligible Shareholder will not take their voting power in excess of 19.99% or from a starting point of above 20% and below 90% in breach of section 606 of the Corporations Act;
- the additional Entitlements will only be issued to the extent there is a sufficient number of available Entitlements;
- applications may be scaled back by the Company in accordance with the policy and discretions set out in this Offer Document; and
- the additional Entitlements will be issued at the Entitlement Offer price of \$0.06 per New Share.

Therefore, applications under the Shortfall Offer may not be successful (whether wholly or partially) and the Company does not guarantee the allocation of Shortfall Shares to any applicant. The decision of the Company on the number of Shortfall Shares to be allocated (if any) will be final. Any Application Monies received for more than an applicant's final allocation of Shortfall Shares will be refunded (without interest) by the Company in accordance with the Corporations Act.

The Shortfall Offer is a separate offer made pursuant to this Prospectus and Shortfall Shares will be issued within three (3) months after the Closing Date.

The Directors reserve the right to issue Shortfall Shares at their absolute discretion and subject to the Corporations Act and Listing Rules to issue Shortfall Shares in a manner that is in the Company's best interests, however, no Shortfall Shares will be placed to any person if it would cause that person or any of their associates to breach the takeover prohibition in section 606 of the Corporations Act (i.e. no person or their associate will have voting power in the Company in excess of 19.99% after the issue of the Shortfall Shares). The Company will ensure that the Entitlement Offer (including the dispersion of any Shortfall Shares) complies with the provisions of Chapter 6 of the Corporations Act and is otherwise consistent with the policy guidelines contained in ASIC Regulatory Guide 6 and Takeovers Panel Guidance Note 17.

Similarly, no New Shares will be issued via the Shortfall Offer to any related parties of the Company (or any other party requiring shareholder approval) without prior shareholder approval. Shortfall Shares will not be allocated and issued where the Company considers that to do so would result in a breach of the Corporations Act, the ASX Listing Rules or any other relevant law.

1.3. CONDITIONAL OFFER

The Offers under this Offer Document are not conditional upon the Company raising any minimum subscription.

1.4. ELIGIBLE SHAREHOLDERS

Eligible Shareholders for the purposes of the Offers are those persons who:

- are registered as a holder of Shares as at 5:00pm (AEST) on the Record Date; and
- have a registered address in Australia, New Zealand or South Africa (to the extent permitted in section 1.6).

The Offers made to Eligible Shareholders with registered addresses in New Zealand is made in reliance on the *Financial Markets Conduct (Incidental Offers) Exemption Notice 2021* (New Zealand).

Notwithstanding the above, the Company may (in its absolute discretion) extend the Entitlement to certain Shareholders who have registered addresses outside the eligible countries in accordance with applicable law (see section 1.5 below).

1.5. INELIGIBLE SHAREHOLDERS

Shareholders who are not Eligible Shareholders are "**Ineligible Shareholders**".

The Company has determined, in reliance on ASX Listing Rule 7.7.1, that it would be unreasonable to extend the Offers to Ineligible Shareholders, having regard to:

- the small number of Ineligible Shareholders;

- the small number and value of the New Shares which would be offered to Ineligible Shareholders if they were Eligible Shareholders; and
- the cost of complying with the legal and regulatory requirements in the respective overseas jurisdictions.

Accordingly, this Entitlement Offer is not being extended to any Shareholders outside Australia or New Zealand (except to the extent permitted in Section 1.6). The Company will notify all Ineligible Shareholders of the Entitlement Offer and advise that the Company is not extending the Entitlement Offer to those Shareholders.

For the purposes of Listing Rule 7.7.1(c), the Company has appointed the Nominee as nominee for the purposes of section 615 of the Corporations Act to arrange for the sale of the Ineligible Shareholders' Entitlements and to account to them for the net proceeds of the sale (if any). The net proceeds of sale (in Australian dollars) will be distributed to the Ineligible Shareholder for whose benefits the Entitlements have been sold in proportion to their shareholding as at the Record Date (after deducting the costs of the sale). There is no guarantee that the Nominee will be able to sell Entitlements of Ineligible Shareholders on ASX or that there will be a liquid market in traded Entitlements. Even where the Nominee is able to sell Entitlements, Ineligible Shareholders may receive no net proceeds if the costs of the sale are greater than the sale proceeds. Both the Company and the Nominee take no responsibility for the outcome of the sale of such Entitlements or the failure to sell such Entitlements or if you trade your Entitlements before they are allotted (whether on the basis of confirmation of the allocation provided by the Company or otherwise).

Ineligible Shareholders who wish to apply for Shortfall Shares and, where it is lawful to do so, should contact the Company Secretary on (+61 8) 6211 5099.

1.6. FOREIGN SHAREHOLDER RESTRICTIONS

The Offer Document does not constitute an offer in any jurisdiction where, or to any person to whom, it would not be lawful to issue this Offer Document or make such an offer. No action has been taken to register or qualify the Shares or the Entitlements Offer or otherwise to permit an offering of the Shares in any jurisdiction outside of Australia and New Zealand (except to the extent permitted in this Section 1.6).

Where the Offer Document has been dispatched to Shareholders domiciled outside Australia or New Zealand and where that country's securities code or legislation prohibits or restricts in any way the making of the Entitlements Offer contemplated by this Offer Document, then the Offer Document and accompanying Acceptance Form are provided for information purposes only. It is the responsibility of any applicant to ensure compliance with any laws of a country relevant to their application. The return of a duly completed Acceptance Form will be taken by the Company as a representation and warranty by the Applicant that there has been no breach of such laws and that the Applicant is an Eligible Shareholder.

Notwithstanding the above, this Offer Document may be distributed in South Africa only to Eligible Shareholders. This Offer Document does not constitute a prospectus prepared and registered under the *South African Companies Act 2008* and may not be distributed to the public in South Africa. This document has not been registered with, or approved by, the South African Companies and Intellectual Property Commission. Any offer of New Shares in South Africa will be made by way of a private placement to, and capable of acceptance only by, investors who fall within one of the specified categories listed in section 96(1)(a) of the *South African Companies Act 2008*. An entity or person resident in South Africa may not implement participation in the Offer unless (i) permitted under the South African Exchange Control Regulations or (ii) a specific approval has been obtained

from an authorised foreign exchange dealer in South Africa or the Financial Surveillance Department of the South African Reserve Bank.

1.7. Notice to nominees and custodians

Nominees and custodians may not distribute this Offer Document (or any part of it) in any country outside Australia, except to Eligible Shareholders (or certain other Shareholders in such other country in which the Company may determine, in advance, that it is lawful and practical to make the Offers).

1.8. MINIMUM SUBSCRIPTION

There is no minimum level of subscription for the Offers.

1.9. RANKING OF NEW SHARES

1.10. ISSUE OF NEW SHARES

The issue of New Shares under this Offer Document will occur in accordance with the timetable. Upon New Shares being issued under the Offers, Holding Statements will be issued to applicants as required by ASX. Applicants who sell their New Shares before they receive their holding statement will do so at their own risk.

1.11. ASX QUOTATION

The Company will apply to ASX for quotation of the New Shares offered under this Offer Document in accordance with the timetable.

1.12. APPLICATION MONIES HELD IN TRUST

All Application Monies will be held in a separate trust account on behalf of applicants until the New Shares are issued pursuant to the Offers. Any interest earned on Application Monies (including those which do not result in the issue of New Shares) will be retained by the Company.

1.13. CHES

The Company participates in the Clearing House Electronic Subregister System (“**CHES**”). ASX Settlement Pty Ltd (“**ASX Settlement**”), a wholly-owned subsidiary of ASX, operates CHES in accordance with the Listing Rules and the ASX Settlement Operating Rules.

ASX Settlement will send a CHES statement to Shareholders who are broker sponsored following the completion of each of the Offers. Each CHES statement will set out the number of New Shares issued to the Shareholder under this Offer Document and provide details of the Shareholder’s holder identification number and the participant identification number of the sponsor. CHES allotment advices will be sent by the Share Registry.

The Share Registry will send a statement to Shareholders who are registered on the Issuer Sponsored sub-register following the completion of the Offers. Each statement will contain the number of New Shares issued to the Shareholder under this Offer Document and the Shareholder’s security holder reference number.

A CHESS statement or Issuer Sponsored statement will routinely be sent to Shareholders at the end of any calendar month during which the balance of their shareholding changes.

1.14. PRIVACY DISCLOSURE

Persons who apply for New Shares under this Offer Document are asked to provide personal information to the Company, either directly or through the Share Registry. The Company and the Share Registry collect, hold and use that personal information to assess applications, to provide facilities and services to security holders and to carry out various administrative functions. Access to the information collected may be provided to the Company's agents and service providers and to ASX, ASIC and other regulatory bodies on the basis that they deal with such information in accordance with the relevant privacy laws. If the information requested is not supplied, applications may not be processed. In accordance with privacy laws, information collected in relation to specific Shareholders can be obtained by that Shareholder through contacting the Company or the Share Registry.

1.15. TAXATION

It is the responsibility of all Shareholders to satisfy themselves of the particular taxation treatment that applies to them in relation to the Offers by consulting their own professional tax advisers. Neither the Company nor the Directors accept any liability or responsibility in respect of the taxation consequences for Shareholders as a result of the matters referred to in this Offer Document.

2.2. PAYMENT OPTIONS

Eligible Shareholders have two (2) payment options in order to take up their Entitlement under the Offers.

2.2.1 BPAY® PAYMENT

For payment by BPAY®, please follow the instructions on the Acceptance Form. You can only make a payment via BPAY® if you are the holder of an account with an Australian financial institution that supports BPAY® transactions. Please note that should you choose to pay by BPAY®:

- you do not need to submit the Acceptance Form but are taken to have made the declarations on that Acceptance Form;
- if you do not pay for your Entitlement in full, you are deemed to have taken up your Entitlement in respect of such whole number of New Shares which is covered in full by your Application Monies; and
- if you pay more than is required to subscribe for your Entitlement, you will be taken to have applied for Shortfall Shares (if any) under the Shortfall Offer, to the extent of the excess.

You should be aware that your own financial institution may implement earlier cut-off times with regard to electronic payment, and you should therefore take this into consideration when making payment. It is your responsibility to ensure that funds submitted through BPAY® are received by 5:00 pm (AEST) on the Closing Date. The Company shall not be responsible for any delay in the receipt of the BPAY® payment.

Guidance where you have more than one CRN (Shareholding of Shares)

If you have more than one (1) shareholding of Shares and consequently receive more than one (1) Acceptance Form, when taking up your Entitlement in respect of one of those Shareholdings only use the CRN specific to that Shareholding as set out in the applicable Acceptance Form. Do not use

the same CRN for more than one (1) of your Shareholdings. This can result in your Application Monies being applied to your Entitlement in respect of only one (1) of your Shareholdings (with the result that any Application Form in respect of your remaining Shareholdings will not be valid).

2.2.2 ELECTRONIC FUNDS TRANSFER

For payment by Electronic Funds Transfer (“EFT”), please follow the instructions on the Acceptance Form. You can only make a payment via EFT if you are the holder of an account that supports EFT transactions to an Australian bank account. Please note that should you choose to pay by EFT:

- you do not need to submit the Acceptance Form but are taken to have made the declarations on that Acceptance Form;
- if you do not pay for your Entitlement in full, you are deemed to have taken up your Entitlement in respect of such whole number of New Shares which is covered in full by your Application Monies; and
- if you pay more than is required to subscribe for your Entitlement, you will be taken to have applied for Shortfall Shares (if any) under the Shortfall Offer, to the extent of the excess.

2.2.3 NO PAYMENT BY CHEQUE

Payment by cheque will not be accepted.

2.3. EFFECT OF MAKING AN APPLICATION

Making a BPAY® or EFT payment will be taken to constitute a representation by the applicant that it:

- has received a printed or electronic copy of this Offer Document accompanying the form and has read it in full;
- agrees to be bound by the terms of this Offer Document and the Constitution;
- makes the representations and warranties in this Section 2.3 and confirms its eligibility in respect of an offer of New Shares under the Offer;
- declares that all details and statements in the Acceptance Form are complete and accurate;
- declares that it is over eighteen (18) years of age and has full legal capacity and power to perform all of its rights and obligations under the Acceptance Form;
- acknowledges that once the Acceptance Form is returned or a BPAY® or EFT payment is made its acceptance may not be withdrawn;
- agrees to being issued the number of New Shares it applies for at the price per New Share under the Offers (or a lower number issued in a way described in this Offer Document);
- authorises the Company to register it as the holder(s) of the New Shares issued to it;
- acknowledges that the information contained in this Offer Document is not investment advice or a recommendation that the New Shares are suitable for it, given its investment objectives, financial situation or particular needs; and
- authorises the Company and its officers or agents to do anything on its behalf necessary for New Shares to be issued to it, including correcting any errors in its Acceptance Form or

other form provided by it and acting on instructions received by the Share Registry using the contact details in the Acceptance Form.

2.4. ENQUIRIES

This Offer Document is important and should be read in its entirety. Shareholders who are in any doubt as to the course to follow should consult their stockbroker, lawyer, accountant or other professional adviser without delay.

Questions relating to the Offers and completion of the Acceptance Forms can be directed to the Share Registry on (+61) 2 9698 5414.

Notes:

1. The proposed use of funds table is indicative only and may vary subject to the Corporations Act, the Listing Rules, other applicable laws and otherwise at the absolute discretion of the Company.
2. Working capital may include wages, payments to contractors, rent and outgoings, insurance, accounting, audit, legal and listing fees, payments to creditors, interest payments, other items of a general administrative nature and cash reserves which may be used in connection with the Company's activities, as determined by the Board at the relevant time.
3. Funds include current cash at bank held by the Company prior to completion of the Offers, being an amount of approximately two million, one hundred and ninety thousand dollars (\$2,190,000) and funds from the Offers, which are anticipated to be approximately five million and fifty six thousand and six dollars (\$5,056,006) (before costs).

The above table is a statement of the Board's current intention as at the date of this Offer Document. However, Shareholders should note that, as with any budget, the allocation of funds set out in the above table may change depending on a number of factors, including the outcome of operational and development activities, regulatory developments, market and general economic conditions and environmental factors. In light of this, the Board reserves the right to alter the way the funds are applied.

If Entitlements under the Offers are not fully taken up by the Shareholders then this may have an effect on the rate at which any plans are undertaken by the Company, such as exploration programs. Additional funding through debt or equity may be considered by the Board where it is appropriate to accelerate a specific project or transaction.

3.2. PRINCIPAL EFFECT OF THE OFFERS

The principal effect of the Offers (assuming Maximum Subscription) will be to increase:

- cash reserves by approximately five million and fifty six thousand and six dollars (\$5,056,006) (before costs); and

3.4. PRO FORMA STATEMENT OF FINANCIAL POSITION

Set out on the following page is the audit reviewed statement of financial position for the Company at 31 December 2023. The audited pro forma statement of financial position has been prepared on the basis and assumption that there have been no material movements in the assets and liabilities of the Company between 31 December 2023 and completion of the Offers other than the:

- issue of up to eighty four million, two hundred and sixty six thousand, seven hundred and seventy one (84,266,771) New Shares at an issue price of \$0.06 per New Share through the Offers to raise up to approximately five million and fifty six thousand and six dollars (\$5,056,006) (before costs); and
- the estimated expenses of the Offers are fifty six thousand, two hundred and ninety seven dollars (\$56,297), which amounts are shown as a deduction against issued capital.

3.6. DETAILS OF SUBSTANTIAL SHAREHOLDERS

The Company currently has the following substantial Shareholders, being a Shareholder with a relevant interest of five percent (5%) or more of the Shares on issue individually or through associated entities:

Shareholder Name	Number of Shares	Percentage
Don And Jennifer Holdings Pty Ltd	188,606,896	13.99%
Mr Brendan David Gore <Gore Family No 2 A/C>	113,712,306	8.43%
Phefo Power (Pty) Limited	110,602,220	8.20%
Robert James Macmillan	90,394,022	6.70%
Adam Sierakowski	76,929,337	5.71%
Talent 10 Holdings (Pty) Ltd	72,222,222	5.36%
Paul Lewis Tromp	70,535,324	5.23%

Notes: The substantial Shareholders listed above have indicated to the Company that they intend to take up all of their Entitlement under the Entitlement Offer (but no Shortfall Shares under the Shortfall Offer).

3.7. EFFECT OF THE ENTITLEMENT OFFER ON CONTROL

3.7.1 GENERAL

There will be no effect on the control of the Company if all Shareholders take up their Entitlement.

As the Entitlement Offer is renounceable and for the purposes of Listing Rule 7.7.1(c), the Company has appointed the Nominee to act as nominee to arrange for the sale of the entitlements that would have been given to Ineligible Shareholders and to account to them for the net proceeds of the sale.

Given the structure of the Offers, the Directors do not believe that there will be any material effect on the control of the Company as a result of the Offers.

The issue of New Shares under the Offers will provide funds for the purposes set out in Section 3.1.

3.8. POTENTIAL DILUTION

Shareholders should note that, if they do not participate in the Offers, their holdings will be diluted. Examples of how the dilution from the Offers may impact Shareholders are set out in the table below:

Holder	Holding as at the Record Date	Percentage at Record Date	Entitlements under the Offer	Holdings if Entitlement not taken up ¹	Percentage holding if Entitlement not taken up ²
Shareholder 1	100,000,000	7.42%	6,250,000	100,000,000	6.98%

Holder	Holding as at the Record Date	Percentage at Record Date	Entitlements under the Offer	Holdings if Entitlement not taken up ¹	Percentage holding if Entitlement not taken up ²
Shareholder 2	50,000,000	3.71%	3,125,000	50,000,000	3.49%
Shareholder 3	20,000,000	1.48%	1,250,000	20,000,000	1.40%
Shareholder 4	10,000,000	0.74%	625,000	10,000,000	0.70%
Shareholder 5	5,000,000	0.37%	312,500	5,000,000	0.35%

Notes:

1. This is based on a share capital of one billion, three hundred and forty-eight million, two hundred and sixty-eight thousand, three hundred and thirty four (1,348,268,334) Shares on issue at the date of this Offer Document and assumes no Shares are issued prior to the Record Date including on exercise or conversion of securities on issue.
2. The dilution effect shown in the table is the maximum percentage dilution on the assumption that the Maximum Subscription is achieved.

The dilution effect shown in the table above is the maximum percentage on the assumption that those Entitlements not accepted are subscribed for under the Shortfall Offer. In the event all Entitlements are not accepted and some or all of the resulting Shortfall is not subsequently taken up, the dilution effect for each Shareholder not accepting their Entitlement would be a lesser percentage.

4 RISK FACTORS

As with any share investment, there are risks associated with an investment in the Company. The numerous risk factors are both of a specific and a general nature. Some can be mitigated by the use of safeguards and appropriate systems and controls, but some are outside the control of the Company and cannot be mitigated.

This Section 4 identifies the major areas of risk associated with an investment in the Company but should not be taken as an exhaustive list of the risk factors to which the Company and its Shareholders are exposed. Potential investors should read the entire Offer Document and consult their stockbroker, lawyer, accountant or other professional adviser before deciding whether to apply for New Shares.

4.1. SPECIFIC RISKS

4.1.1 EXPLORATION, GEOLOGICAL AND DEVELOPMENT RISKS

Hydrocarbon exploration and development is a speculative and high-risk undertaking that may be impeded by circumstances and factors beyond the control of the Company. Success in this process involves (amongst other things):

- discovery and proving-up, or acquiring, an economically recoverable resource or reserve;
- access to adequate capital throughout the acquisition/discovery and project development phases;
- securing and maintaining title to hydrocarbon exploration projects;
- obtaining required development consents and approvals necessary for the acquisition, exploration, development and production phases; and
- accessing the necessary experienced operational staff, the applicable financial management and recruiting skilled contractors, consultants and employees.

There can be no assurance that exploration will result in the discovery of an economic hydrocarbon resource or reserve. Even if an apparently viable mineral resource is identified, there is no guarantee that it can be economically exploited.

The exploration activities of the Company may be adversely affected by a range of factors including geological conditions, operational risks and changing government laws and regulations. Further, whether positive income flows result from projects on which the Company will expend exploration and development capital is dependent on many factors including successful exploration, establishment of production facilities, cost control, commodity price movements, successful contract negotiations for production and stability in the local political environment.

In addition, significant expenditure may be required to establish necessary hydrocarbon extraction and treatment processes to develop and exploit any hydrocarbon reserves identified. There is no assurance that the Company will have sufficient working capital or resources available to do this.

4.1.2 FUTURE PROFITABILITY

The Company's profitability will be impacted by, among other things, the success of its exploration and gas production activities, economic conditions in the markets in which it operates, competition factors and any regulatory developments. Accordingly, the extent of future profits (if any) and the time required to achieve sustained profitability are uncertain and cannot be reliably predicted.

4.1.3 OPERATIONAL RISKS

The operations of the Company may be affected by various factors, including:

- failure to locate or identify hydrocarbon deposits;
- failure to achieve predicted grades in hydrocarbon exploration and production;
- operational and technical difficulties encountered in gas production;
- insufficient or unreliable infrastructure, such as power, water and transport;
- political or civil unrest, including outbreaks of violence or other hostilities;
- difficulties in commissioning and operating plant and equipment;
- mechanical failure or plant breakdown;
- unanticipated hydrocarbon extraction and treatment processes problems which may affect extraction costs;
- adverse weather conditions;
- industrial and environmental accidents and disputes; and
- unexpected shortages or increases in the costs of consumables, spare parts, plant and equipment.

In the event that any of these potential risks eventuate, the Company's operational and financial performance may be adversely affected.

4.1.4 ACCESS TO EXPLORATION RIGHTS

The right of the holder of exploration rights to explore for hydrocarbons is subject to the consent of the occupier of the land and, where the land is proximate to certain specified locations, the ministry responsible for the protection of such locations. Immediate access to rights cannot in all cases be guaranteed. The Company currently has the relevant rights and approvals required to access and explore, however these licenses and approvals are subject to change.

4.1.5 GOVERNMENT AND REGULATORY RISK

Operations by the Company may require approvals, consents or permits from government or regulatory authorities, including renewals of existing exploration permits or title transfer to newly acquired exploration permits, which may not be forthcoming or which may not be able to be obtained on terms acceptable to the Company.

Whilst there is no reason to believe that necessary government and regulatory approvals will not be forthcoming, the Company cannot guarantee that those required approvals will be obtained. Failure to obtain any such approvals could mean the ability of the Company to prove-up, develop or operate any project or to acquire any project, may be inhibited or negated.

4.1.6 COMMODITY PRICE AND CURRENCY EXCHANGE RISKS

As the Company's potential earnings will be largely derived from the sale of gas, the Company's future revenues and cash flows will be impacted by changes in the prices and available markets of these commodities. Any substantial decline in the price of those commodities or in transport or distribution costs may have a material adverse effect on the Company and the value of its Shares.

Commodity prices fluctuate and are affected by numerous factors beyond the control of the Company. These factors include current and expected future supply and demand, forward selling by producers, production cost levels in major gas producing centres as well as macroeconomic conditions such as inflation and interest rates.

Furthermore, the international prices of most commodities are denominated in United States dollars while the Company cost base will be in Australian dollars. Consequently, changes in the Australian dollar exchange rate will impact on the earnings of the Company. The exchange rate is affected by numerous factors beyond the control of the Company, including international markets, interest rates, inflation and the general economic outlook.

4.1.7 RESOURCE AND RESERVE ESTIMATES

Estimates which were valid when originally made may change appreciably when further information becomes available. Such resource and reserve estimates are by nature imprecise, depending on interpretations which may, with further exploration, prove to be inaccurate. Moreover, should the Company encounter ore bodies or formations which differ from those suggested by past sampling and analysis, resource and reserve estimates may have to be adjusted and any production plans altered accordingly which may adversely impact the Company's plans.

4.1.8 RESULT OF STUDIES

Subject to the results of exploration and testing programs to be undertaken, the Company may progressively undertake a number of studies. These studies may include scoping, pre-feasibility, definitive feasibility and bankable feasibility studies.

These studies will be completed within parameters designed to determine economic feasibility within certain limits. There can be no guarantee that any of the studies will confirm economic viability or the results of other studies undertaken by the Company (e.g. the results of a feasibility study may materially differ to the results of a scoping study).

4.1.9 AGENTS AND CONTRACTORS

The Directors are unable to predict the risk of financial failure or default or the insolvency of any of the contractors which will be used by the Company in any of its activities or other managerial failure by any of the other service providers used by the Company for any activity. Any default or insolvency is outside the Company's control and may have an adverse effect on the Company's operations.

4.1.10 INSURANCE

The Company intends to adequately insure its operations in accordance with industry practice. However, in certain circumstances, the Company's insurance may not be of a nature or level to provide adequate insurance cover. The occurrence of an event that is not covered or fully covered by insurance could have a material adverse effect on the business, financial condition and results of the Company.

Insurance of all risks associated with mineral exploration and production is not always available. Further, where coverage is available, the costs may be prohibitive.

4.1.11 ENVIRONMENTAL

The Company's activities are subject to the environmental laws inherent in the hydrocarbon industry and those specific to South Africa. The Company intends to conduct its activities in an environmentally responsible manner and in compliance with all applicable laws. However, the Company may be the subject of accidents or unforeseen circumstances that could subject the Company to extensive liability.

In addition, environmental approvals may be required from relevant government or regulatory authorities before activities may be undertaken which are likely to impact the environment. Failure or delay in obtaining such approvals will prevent the Company from undertaking its planned activities. Further, the Company is unable to predict the impact of additional environmental laws and regulations that may be adopted in the future, including whether any such laws or regulations would materially increase the Company's cost of doing business or affect its operations in any area.

4.1.12 REHABILITATION OF TENEMENTS

In relation to the Company's proposed operations, issues could arise from time to time with respect to abandonment costs, consequential clean-up costs, environmental concerns and other liabilities. In these instances, the Company could become subject to liability if, for example, there is environmental pollution or damage from the Company's exploration activities and there are consequential clean-up costs at a later point in time.

4.1.13 CLIMATE CHANGE REGULATION

Mining of gas and methane is relatively energy intensive and is dependent on the consumption of fossil fuels. Increased regulation and government policy designed to mitigate climate change may adversely affect the Company's cost of operations and adversely impact the financial performance of the Company.

The efforts of the South African government to transition towards a lower-carbon economy may also entail extensive policy, legal, technology and market changes to address mitigation and adaptation requirements related to climate change that could significantly impact the Company. Depending on the nature, speed and focus of these changes, transition risks may pose varying levels of financial and reputational risk to the Company.

Furthermore, the physical risks to the Company resulting from climate change can be event driven (acute) or longer-term shifts (chronic) in climate patterns. These physical risks may have financial implications for the Company, such as direct damage to assets and indirect impacts from supply chain disruption.

4.1.14 CONTRACT RISK

The operations of the Company will require the involvement of a number of third parties, including suppliers, contractors and customers. With respect to these third parties, and despite applying best practice in terms of pre-contracting due diligence, the Directors are unable to completely avoid the risk of:

- financial failure or default by a participant in any joint venture to which the Company or its subsidiaries may become a party;
- insolvency, default on performance or delivery, or any managerial failure by any of the operators and contractors used by the Company or its subsidiaries in its exploration activities; or
- insolvency, default on performance or delivery, or any managerial failure by any other service providers used by the Company or its subsidiaries or operators for any activity.

Financial failure, insolvency, default on performance or delivery, or any managerial failure by such third parties may have a material impact on the Company's operations and performance. Whilst best practice pre-contracting due diligence is undertaken for all third parties engaged by the Company, it is not possible for the Company to predict or protect itself completely against all such contract risks.

4.2. GENERAL RISKS

4.2.1 CREDIT RISK

There is the credit risk that the other party to a financial instrument will fail to discharge their obligation, resulting in the Company incurring a financial loss. Credit risk arises from cash and cash equivalents (e.g. deposits and investments held with banks and financial institutions), favourable derivative contracts (derivative assets), and receivables, guarantees given on behalf of others and commitments granted but not drawn down at the end of the reporting period.

4.2.2 ACQUISITIONS

The Company may make acquisitions of, or significant investments in, companies or assets that are complementary to its business. Any such future transactions are accompanied by the risks commonly encountered in making acquisitions of companies or assets, such as integrating cultures and systems of operation, relocation of operations, short term strain on working capital requirements, achieving mineral exploration success and retaining key staff.

4.2.3 SAFETY

Safety is a fundamental risk for any exploration and production company in regards to personal injury, damage to property and equipment and other losses. The occurrence of any of these risks could result in legal proceedings against the Company and substantial losses to the Company due to injury or loss of life, damage or destruction of property, regulatory investigation, and penalties or suspension of operations. Damage occurring to third parties as a result of such risks may give rise to claims against the Company.

4.2.4 LITIGATION

The Company may in the ordinary course of business become involved in litigation and disputes, for example with service providers, customers or third parties infringing the Company's intellectual property rights. Any such litigation or dispute could involve significant economic costs and damage to relationships with contractors, customers or other stakeholders. Such outcomes may have an adverse impact on the Company's business, reputation and financial performance.

4.2.5 SHARE MARKET

Share market conditions may affect the value of the Company's quoted securities regardless of the Company's operating performance. The market price of the Shares may be subject to fluctuation and may be affected by many factors including but not limited to the following:

- general economic outlook;
- interest rates and inflation rates;
- currency fluctuations;
- mineral/commodity price fluctuations;
- changes in investor sentiment toward particular market sectors;
- the demand for, and supply of, capital;
- terrorism or other hostilities; and
- other factors beyond the control of the Company.

4.2.6 COMMERCIALISATION RISK

Even if the Company discovers commercial quantities of hydrocarbons, there is a risk the Company will not achieve a commercial return. The Company may not be able to transport any gas extracted from its operations at a reasonable cost or may not be able to sell the gas to customers at a rate which would cover its operating and capital costs. There is also a risk that necessary regulatory approvals may not be obtained.

The hydrocarbon industry is competitive and there is no assurance that, even if commercial quantities are discovered, a profitable market will exist for sales of such commodities. There can be no assurance that the quality of the commodity will be such that the properties in which the Company holds and interest can be mined at a profit.

4.2.7 FUTURE CAPITAL NEEDS

Additional funding beyond the funds raised under the Capital Raisings may be required by the Company to support its ongoing operations. There can be no assurance that such funding will be available on satisfactory terms to the Company or at all. Any inability to obtain funding will adversely affect the business and financial condition of the Company and, consequently, its performance and ability to take advantage of opportunities to develop projects.

Further, any additional funding raised by issue of equity will be dilutive to the then current Shareholders. Equally, debt funding, if available in the future, may involve restrictions on financing and operating activities of the Company and its subsidiaries.

4.2.8 CHANGES TO LAWS AND REGULATIONS

The Company may be affected by changes to laws and regulations (in Australia, South Africa and other countries in which the Company may operate) concerning property, the environment, superannuation, taxation trade practices and competition, government grants, incentive schemes, accounting standards and other matters. Such changes could have adverse impacts on the Company from a financial and operational perspective.

4.2.9 CYBER SECURITY

Cyber security and the potential for attacks on the Company's hardware and software systems, networks, and data represents a potential risk to the Company's operations and could result in serious adverse impacts to its financial and other performance.

Exploitation or hacking of any of the Company's systems or networks could lead to corruption, theft or loss of the data which could have a material adverse effect on the Company's business, financial condition and results. Any cyber or related attacks and theft of this information could seriously impact on the Company's business and is a risk to the Company's future performance.

4.2.10 ECONOMIC RISKS

The future viability of the Company is also dependent on a number of other factors affecting performance of all industries and not just the exploration and mining industries including, but not limited to, the following:

- general economic conditions;
- changes in Government policies, taxation and other laws;
- the strength of the equity and share markets in Australia and throughout the world, and in particular investor sentiment towards the commodities (resources) sector;

- movement in, or outlook on, interest rates and inflation rates; and
- natural disasters, social upheaval, pandemic or war.

4.2.11 FORCE MAJEURE RISK

Events may occur within or outside the markets in which the Company operates that could impact upon the global, South African and Australian economies and the operations of the Company. These events include acts of terrorism, outbreaks of international hostilities, fires, pandemics, floods, earthquakes, labour strikes, civil wars, natural disasters, outbreaks of disease such as pandemics, and other man-made or natural events or occurrences that can have an adverse effect on the demand for the Company's services and its ability to conduct business. Given the Company has only a limited ability to insure against some of these risks, its business, financial performance and operations may be materially adversely affected if any of the events described above occurs.

4.3. OTHER RISKS

This list of risk factors above is not an exhaustive list of the risks faced by the Company or by investors in the Company. The risk factors described in this Section 4 as well as risk factors not specifically referred to above may in the future materially affect the financial performance of the Company and the value of its Shares. Therefore, the Shares offered under this Offer Document carry no guarantee with respect to the payment of dividends, return of capital or their market value.

Investors should consider that an investment in the Company is highly speculative and should consult their professional advisers before deciding whether to apply for Shares under this Offer Document.

Each Nominee Option entitles the holder to subscribe for one (1) Share upon exercise of the Nominee Option.

2. EXPIRY DATE

Each Nominee Option will expire at 5.00pm (AWST) on 31 December 2026 ("**Expiry Date**").

3. ISSUE AND EXERCISE PRICE

Each Nominee Option will be granted for no cash consideration but will have an exercise price of \$0.12 per Nominee Option ("**Exercise Price**").

4. EXERCISE NOTICE AND PAYMENT

Nominee Options may be exercised by notice in writing to the Company ("**Exercise Notice**") together with payment of the Exercise Price for each Nominee Option being exercised. Any Exercise Notice for a Nominee Option received by the Company will be deemed to be a notice of the exercise of that Nominee Option as at the date of receipt. Payment in connection with the exercise of Nominee Options must be in Australian dollars and made payable to the Company in cleared funds.

5. SHARES ISSUED ON EXERCISE

Shares issued on exercise of Nominee Options will rank equally in all respects with then existing Shares in the Company.

6. QUOTATION OF SHARES

Provided that the Company is quoted on ASX at the time, an application will be made by the Company to ASX for quotation of the Shares issued upon the exercise of the Nominee Options.

7. TIMING OF ISSUE OF SHARES

Subject to section 9, within five (5) business days after the later of the following:

- (e) receipt of an Exercise Notice given in accordance with these terms and conditions and payment of the Exercise Price in cleared funds for each Nominee Option being exercised by the Company if the Company is not in possession of excluded information (as defined in section 708A(7) of the Corporations Act); and

- (f) the date that the Company ceases to be in possession of excluded information with respect to the Company (if any) following the receipt of the Exercise Notice and payment of the Exercise Price in cleared funds for each Nominee Option being exercised by the Company,

the Company will allot and issue the Shares pursuant to the exercise of the Nominee Options and, to the extent that it is legally able to do so:

- (g) give ASX a notice that complies with section 708A(5)(e) of the Corporations Act; and
- (h) apply for official quotation on the ASX of the Shares issued pursuant to the exercise of the Nominee Options.

If the Company is unable to lodge a notice that complies with section 708A(5)(e) of the Corporations Act then the Company may, in its absolute discretion, issue the Shares after the lodgement of a disclosure document issued by the Company complying with Part 6D.2 of the Corporations Act in respect of an offer of Shares (“**Cleansing Prospectus**”) or, if agreed by the holder, issue the Shares after the holder signs an undertaking not to deal in the Shares until the earlier of the Company issuing a Cleansing Prospectus and twelve (12) months from issue, and agrees to a holding lock being placed on the Shares for this period.

8. SHAREHOLDER AND REGULATORY APPROVALS

Despite any other provision of these terms and conditions, exercise of Nominee Options into Shares will be subject to the Company obtaining all required (if any) Shareholder and regulatory approvals for the purpose of issuing the Shares to the holder. If exercise of the Nominee Options would result in any person being in contravention of section 606(1) of the Corporations Act then the exercise of each Nominee Option that would cause the contravention will be deferred until such time or times that the exercise would not result in a contravention of section 606(1) of the Corporations Act. Holders must give notification to the Company in writing if they consider that the exercise of the Nominee Options may result in the contravention of section 606(1) of the Corporations Act, failing which the Company will be entitled to assume that the exercise of the Nominee Options will not result in any person being in contravention of section 606(1) of the Corporations Act.

9. PARTICIPATION IN NEW ISSUES

There are no participation rights or entitlements inherent in the Nominee Options and holders will not be entitled to participate in new issues of capital offered to Shareholders during the currency of the Nominee Options. However, the Company will ensure that for the purposes of determining entitlements to any such issue, the record date will be at least four business days after the issue is announced. This is intended to give the holders of Nominee Options the opportunity to exercise their Nominee Options prior to the announced record date for determining entitlements to participate in any such issue.

10. ADJUSTMENT FOR BONUS ISSUES OF SHARES

If the Company makes a bonus issue of Shares or other securities to existing Shareholders (other than an issue in lieu or in satisfaction of dividends or by way of dividend reinvestment), the number of Shares which must be issued on the exercise of a Nominee Option will be increased by the number of Shares which the holder would have received if

the holder had exercised the Nominee Option before the record date for the bonus issue and there will be no change made to the Exercise Price.

11. ADJUSTMENT FOR RIGHTS ISSUES

If the Company makes an issue of Shares pro rata to existing Shareholders there will be no adjustment to the Exercise Price.

12. ADJUSTMENTS FOR REORGANISATION

If there is any reconstruction of the issued share capital of the Company, the rights of the holders may be varied to comply with the Listing Rules which apply to the reconstruction at the time of the reconstruction.

13. QUOTATION

The Company will not apply for quotation of the Nominee Options on ASX.

14. TRANSFERABILITY

Nominee Options can only be transferred with the prior written consent of the Company, which consent may be withheld in the Company's sole discretion.
