

Tenement Sale Agreement

Laverton Project

Rincon Resources Limited (ASX: RCR) (“**Rincon**” or “**Company**”) is pleased to advise it has executed a Tenement Sale Agreement with Magnetic Resources NL (ASX: MAU) to sell exploration licence 38/3666 (**‘Tenement’**) for a cash only consideration of \$170,000 (ex GST). The Tenement formed part of the Laverton Project in Western Australia.

Completion of the Tenement Sale Agreement is subject to the satisfaction of conditions precedent relating to the assignment and assumption of third-party agreements by 1st October 2024.

Rincon’s Managing Director, Gary Harvey said:

“Following our recent project review, E38/3666 was not considered a core focus in our new gold exploration strategy going forward. Selling the tenement to Magnetic Resources was good timing, a great outcome for the Company, and now allows us to focus on our core tenements within the Laverton Project.”

About Rincon

Rincon has 100% interest in three exploration assets in Western Australia that are highly prospective for copper, gold, Nb, REE's, and other critical metals required for the energy transition. These are the South Telfer Project, West Arunta Project and Laverton Project.

Each asset has previously been subject to historical exploration which has identified prospective mineral systems that warrant further exploration. The Company's aim is to create value for its shareholders by advancing its assets through the application of technically sound, methodical and systematic exploration programs to test, discover, and delineate economic resources for mining.
